

## NEXT GO ROUND

**D**  
Well the summer's come and gone, And the leaves fall on the lawn  
**A7** **D**  
I think of how this pleasure's passed me by ..... And I am thinking of my old home  
**A7** **D**  
And the love I left behind, No I couldn't, go back there if I tried

### Chorus:

**D** **G** **D**  
On my next go round, I'm gonna get back to, the dreams we knew, before I broke them down  
**G** **D**  
Gonna take your hand, Gonna be the man, who pulls you from the ground  
**A7** **D**  
I won't let you down..... On my next go round

**D** **A7** **D**  
We were standing on the edges, of a thousand burning bridges, sifting through the ashes every day  
What we thought was never-ending now, is nothing more than memories,  
**A7** **D**  
Of the way things were before I lost my way.

### Chorus:

**D** **G** **D**  
On my next go round, I'm gonna keep it to, the dreams we knew, before I broke them down  
**G** **D**  
Gonna take your hand, Wanna be the man, who pulls you from the ground  
**A7** **D**  
I won't let you down..... On my next go round

### BREAK

**D**  
Now the winds are blowing steady, my bags they're awful heavy  
**A7** **D**  
I wish that I could stop and turn around, But there are no second chances  
**A7** **D**  
In a world of circumstances, No, in this life, you don't get no next go round!

### Chorus:

**D** **G** **D**  
On my next go round, Gonna start again, gonna let you in, gonna lay our burdens down  
**G** **D**  
Gonna be the one to never turn and run, I'll always be around  
**A7** **D**  
I won't let you down..... On my next go round  
**A7** **D**  
I won't let you down..... On my next go round
